ACADIANA AMATEUR RADIO ASSOC., INC. - a 501(c)3 Corporation August 2020

## A Message from Chris Ancelet N5MCY:

Good morning AARA Members,

I have been contacted by Mr. Lamperez with the 2020 Tour du Teche race. I have been asked if we would be willing to participate in this 3 day event. The dates are October 2, 3, &4.

Just like the events in the past, we would be manning the various checkpoints and providing real time information to the command post.

Even though the event is scheduled, there is still a chance that this event will be cancelled due to our current situation.

What we need to provide to the committee, is a list of people wanting to participate. I have received 1 confirmation from Tom Dischler thus far and we will need the following spots filled as well as someone that wants to coordinate the event. Unfortunately, I will not be able to spearhead this event due to my work schedule. Below are the checkpoints that need to be filled.

Please let me know if you are wanting to chair this event and/or want to man a checkpoint. We will need to get this information to the committee as soon as we can.

International Postal Service Disrupted  
 06/09/2020

The US Postal Service (USPS) has temporarily suspended international mail acceptance for items addressed to certain destinations due to service impacts related to the COVID-19 pandemic. This situation could result in the return or loss of mail, such as QSL cards, addressed to affected parts of the world. The USPS has posted a list of affected countries, which is updated regularly. The Postal Service will, upon request, refund postage and fees on mail bearing a customs stamp that's returned due to the suspension of service, or the sender may re-mail returned items with existing postage once service has been restored. When re-mailing under this option, customers should cross out the markings "Mail Service Suspended — Return to Sender."

Our next club meeting will be held on the air on August 6, 2020 on the W5EXI repeater.  
Check-in will begin about 6:30 PM with the meeting beginning at 7:00 PM.

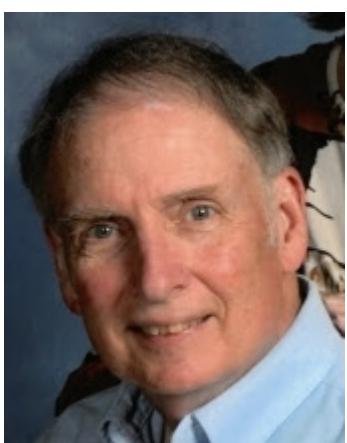

Repeater: **147.040 MHz + 0.600 PL 103.5 W5EXI**

## A BLAST FROM THE PAST Field Day 2001

Some of you "older" AARA members may remember 2001 AARA Field Day that was held on June 23 & 24 at Cajun Field. That was some 19 years ago, It was a good time with many good friends, some are now Silent Keys. It was one of our better Field Days. A lot of paperwork (crossing "T"'s and dotting "I"'s) went into procuring this site thanks to Field Day Chairperson Phil Caubareau KB5EKD.

Our tower trailer had a winch driven telescoping tower which would reach in excess of 100 feet. We had it near 100 feet with a American Flag which could be seen from anywhere around Cajun Field especially from Congress Street and Bertrand Drive. A husband & wife were driving down Bertrand Drive and noticed the tower with the flag and both were ham radio operators just passing thru Lafayette on their way to San Antonio, TX to visit his father and decided to investigate.

The couple were Skip & Cindy Douglass KA9DDN & KA9PZG of Grafton, Wisconsin. They came over to our Field Day site and visited for a while. We exchanged e-mails and after a short while they continued on their trip to San Antonio. I managed to keep in touch with them. Between 2001 and the present time, they have passed thru Lafayette and visited me at my QTH on four or five occasions.

The main reason for this article is that Skip KA9DDN became a Silent Key on July 17, 2020. Skip was an avid amateur radio operator KA9DDN and belonged to the Ozaukee Radio Club. He also was a member of the Ozaukee Amateur Radio Emergency Services, the Saukville Rifle and Pistol Club, and had a passion for photography, woodworking, building computers, camping with his family, and loved listening to music.

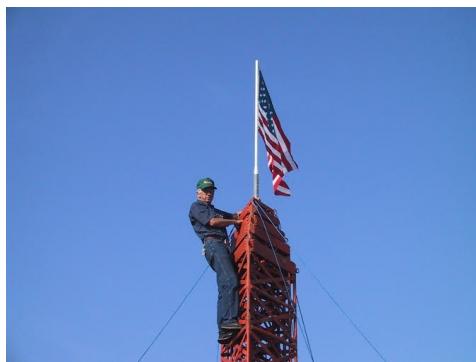

Ham radio can be fun and one way to meet people and become good friends is on Field Day.

## Traffic-Handling Webinar Launches Ham Radio Learning Series

From ARRL Newsletter 07-28-2020

A live presentation from ARRL North Texas Section Traffic Manager Aaron Hulett, K8AMH, inaugurated the new ARRL Learning Network on Tuesday, July 28. The webinar series features 30-minute presentations from experienced members covering a variety of amateur radio topics and interests. Hulett's webinar, "Relay Stations and the Art of Traffic Handling," introduced techniques and skills practiced by radio amateurs like himself who relay messages during emergencies, disasters, and other incidents that interrupt conventional telecommunications, including the internet. Through an overview of the ARRL National Traffic System, Hulett shared examples of preparing a radiogram and resources for finding traffic nets and other volunteers.

"Aaron hit a home run," said Bob Inderbitzen, NQ1R, ARRL Product Development Manager and moderator for Hulett's webinar. "His presentation was the perfect balance of knowledge-sharing and enthusiasm that will surely motivate other members to try their hand at traffic handling." A recording of the webinar is available for members to view.

The webinars are hosted using GoToWebinar. Members are invited to ask questions during each webinar, and a 15-minute Q&A period follows each presentation for those who can participate longer. A running list of upcoming live presentations is available below and on the ARRL Learning Network web page. Prospective attendees may register on that same page. ARRL members must first log into the ARRL website.

Inderbitzen encourages other members to be considered for future ARRL Learning Network webinars by inviting them to complete a Call for Speakers form. "It's all about members helping members. What better way to grow greater participation in amateur radio!"

### Schedule of Upcoming Webinars

#### ***Fun with Digital Signal Modes FT4 and FT8 ~ Anthony Luscre, K8ZT***

*Thursday, July 30, 2020, 12:30 PM PDT / 3:30 PM EDT (1930 UTC)*

#### ***HF Wire Antennas ~ George Cooley, NG7A, ARRL Life Member***

*Thursday, August 6, 2020, 12:30 PM PDT / 3:30 PM EDT (1930 UTC)*

#### ***Introduction to Digital FM Modes ~ Korey Chandler, Sr., WA5RR***

*Tuesday, August 11, 2020, 5 PM PDT / 8 PM EDT (0000 UTC on Wednesday, August 12)*

#### ***Introduction to Computer Logging ~ Steven Lott Smith, KG5VK***

*Thursday, August 13, 2020, 12:30 PM PDT / 3:30 PM EDT (1930 UTC)*

#### ***Capture the Magic of 6 Meters ~ Jim Wilson, K5ND***

*Tuesday, August 18, 2020, 10 AM PDT / 1 PM EDT (1700 UTC)*

#### ***The Sport of Finding Hidden Transmitters on Foot ~ Robert Frey, WA6EZV***

*Thursday, August 20, 2020, 12:30 PM PDT / 3:30 PM EDT (1930 UTC)*

### **EGG CREAM**

A New York Egg Cream contains three ingredients: milk, seltzer water, and chocolate syrup. Ironically it contains neither egg nor cream.

1 Cup Cold Milk	1/4 Cup Seltzer Water Cold
2 Tbs Chocolate flavored syrup	

Place a 12 oz. Glass in the freezer to chill. (This is important to keep the theme.)

Pour the cold milk into the glass.

Pour the seltzer into the glass until the white head reaches the top of the glass.

Spoon the syrup into the glass and stir to combine. Serve with a straw.

Note: If you follow the directions exactly, you will have a white foam at the top. This is called the **Brooklyn**-style.

If you mix the chocolate with the milk before adding the seltzer water, it will have a brown foam. This is the **Bronx**-style.

### ***FCC Information Service***

*Toll Free (WATS) for Amateur Radio license inquiries about new/vanity call signs: 1-888-225-5322 This will connect you to the FCC National Call Center, handled by the FCC's Consumer Information Bureau.
